

Teaming for Excellence

European Commission

Teaming is one of the actions that stimulate Europe to exploit its potential by maximizing and spreading the benefits of research and innovation. It is vital for Europe's competitiveness and its ability to address societal challenges. The Teaming action is designed to support the creation of new centres of excellence or upgrading the existing ones in low R&I performing countries, building on partnerships between leading scientific institutions in Europe and the main beneficiary institutions in low R&I performing countries that display the willingness to engage together for this purpose. This can help countries that are lagging behind in terms of research and innovation performance attaining a competitive position in the global value chains. Leading scientific institutions are advanced and established partners that have developed an outstanding reputation in research and innovation excellence in the chosen scientific domain. Institutions that are still in the process of development or modernisation, e.g. those that are still receiving support as coordinators from widening actions under Horizon 2020, are normally not considered leading institutions unless a proper justification is provided for in the proposal. In order to maximise the impact of research and innovation on society, environment and economy at large and to contribute in particular to the achievement of the Union's objectives, Union funding must be coherent and work in synergy. This notion is highly relevant for Teaming action, where complementary funding from a national (or regional or European or private source) is required. The implementation of Teaming action is expected to become an influential and meaningful bridge particularly between smart specialisation strategies and excellence in R&I with the aim of strengthening the European Research Area and contributing to the Sustainable Development Goals.

Eligibility

To be eligible for funding, applicants must be established in one of the eligible countries;

- The Member States of the European Union, including their outermost regions
- The Overseas Countries and Territories (OCTs) linked to the Member States
- Eligible non-EU countries; countries associated to Horizon Europe and low- and middle-income countries

The award value is EUR 15000000

The call will open on 03 December 2024 and the deadline is 10 April 2025 and 20 January 2026.
