Research Grant

Agate Project

Agate Project is a not-for-profit company that offers a range of education opportunities for professionals, researchers and students based in Africa in the field of earth and planetary sciences. This grant scheme aims to provide support to researchers in their projects. The Research project needs to start not more than 6 months after the initial award and not last more than one year from that date. The scheme is open to all researchers based in African Universities who are meeting the eligibility criteria. The maximum budget is AU\$ 10,000 for one year.

Eligibility

- Applicants need to be a citizen of an African country
- Applicants need to have completed a PhD in the last 10 years
- Applicants cannot submit more than one application per round
- Applicants who received grants in 2021 are not eligible
- Students may not apply but are eligible for the Student Scholarship Fund
- The research focus can be any subject matter within the earth and planetary sciences
- The Grant Scheme Proposal online application form needs to be completed and sent with all requested documents before the application deadline
- No more than one grant will be awarded per organisation
- This year an additional grant will be awarded to a WAXI-affiliated project excluding WAXI module leaders (see <http://WAXI4.org> for details of that project) however you do NOT have to be a WAXI partner to apply for an Agate Project Research Grant.

The application deadline is 1st June 2025.
